Desheng Ma

dma1@bnl.gov / dm852@cornell.edu +1 (607) 262 9280

Brookhaven National Laboratory
Building 480, Room 1-117
76 Cornell Ave
Upton, NY 11973-5000

Cornell University
G02 Physical Sciences Building / 271 Clark Hall
142 Sciences Dr
Ithaca, NY 14850

Education

2025 **Cornell University**
Ithaca, NY, USA
Ph.D., Applied Physics
Minors: Theoretical Physics and Statistics

2021 **Cornell University**
Ithaca, NY, USA
M.S., Applied Physics

2019 **Nankai University**
Tianjin, China
B.S., Physics

2016 – 2017 **Columbia University**
New York, NY, USA
Visiting student, Columbia College Visiting Student Program

Research Interests

4D-STEM, imaging theory, electron ptychography, computational imaging, ultrafast electron microscopy, electron optics, aberration correction, instrumentation, complex systems, AI for science

Research Experience

2025 – present **Brookhaven National Laboratory**
Condensed Matter Physics and Materials Science Department
Research with Dr. Yimei Zhu

- Laser-free ultrafast electron microscopy.
- Quantitative structure-factor determination using electron ptychography.

2019 – 2025 **Cornell University**

School of Applied and Engineering Physics

Ph.D. research with Prof. David Muller

- Novel imaging methods and theory in 4D-STEM:
  - 3D imaging in 4D-STEM via light-field refocusing. arXiv:2610.01057.
  - Direct ptychography with higher-order aberrations. doi:10.1093/mam/ozag008.
  - Information transfer in 4D-STEM. doi:10.1016/j.ultramic.2026.114351.
  - Information limit and dose efficiency of electron ptychography. doi:10.1093/mam/ozae044.910.
- Emittance minimization for aberration correction via machine learning and Bayesian optimization. Part I; Part II.

- Multi-objective Bayesian optimization for electron ptychography.
- In situ diffraction and 4D-STEM imaging of 2H-$TaSe_2$ CDW domains. arXiv:2603.15915.

2020 – 2022 **Cornell University**
Samuel Curtis Johnson Graduate School of Management
Research assistant with Prof. Shawn Mankad

- A Structural Model for Latent Ratings and Topics in Text (draft available).
- CP-Squared: A method for change point detection in core–periphery networks. doi:10.1016/j.eswa.2022.116660.

Summers 2017 and 2018 **Columbia University**
Department of Physics
Research intern with Prof. Sebastian Will

- New experimental setup for the laser cooling and trapping of ultracold dipolar molecules.

Work in Progress

Conferences and Workshops

Aug. 2026 — **P04.1: Advances in 4D-STEM for Quantum Materials** (invited talk)
Microscopy & Microanalysis 2026 Meeting, August 2–6, Milwaukee, WI, USA

Aug. 2026 — **A02.P1: Why Ptychography Works Better with Aberrations** (poster #97)
Microscopy & Microanalysis 2026 Meeting, August 2–6, Milwaukee, WI, USA

May 2026 — **CH04.07.07: Dose-Efficient Tilt-Corrected 4D-STEM Imaging Using Aberrations**
2026 MRS Spring Meeting & Exhibit, April 26–May 1, Honolulu, HI, USA

July 2025 — **C06.3: Emittance Minimization for Aberration Correction via Machine Learning and Bayesian Optimization**
Microscopy & Microanalysis 2025 Meeting, July 27–31, Salt Lake City, UT, USA

Mar. 2025 — **MAR-S39: Physics-Informed Bayesian Optimization of an Electron Microscope**
APS March Meeting 2025, March 15–22, Los Angeles, CA, USA

July 2024 — **C01.3: Information Limit and Dose Efficiency of Electron Ptychography**
Microscopy & Microanalysis 2024 Meeting, July 28–August 1, Cleveland, OH, USA

July 2023 — **C01.2: Physics-Informed Bayesian Optimization of an Electron Microscope**
Microscopy & Microanalysis 2023 Meeting, July 23–27, Minneapolis, MN, USA

Mar. 2023 — **A45.00007: Physics-Informed Bayesian Optimization of an Electron Microscope**
APS (American Physical Society) March Meeting 2023, March 5–10, Las Vegas, NV, USA

Dec. 2022 — **Physics-informed Bayesian Optimization of an Electron Microscope** (poster)
Machine Learning and the Physical Sciences Workshop, NeurIPS 2022, December 3, New Orleans, LA, USA

Nov. 2022 — **Physics-Informed Bayesian Optimization of an Electron Microscope**
MIT.nano workshop: Automation, AI and Machine Learning in Electron Microscopy: Current Trends and Future Developments, Boston, MA, USA

Nov. 2022 — **Machine Learning for Beam Emittance Measurement and Aberration Correction of an Electron Microscope**
3rd ICFA Beam Dynamics Mini-Workshop on Machine Learning Applications for Particle Accelerators, Chicago, IL, USA

Oct. 2022 — **SMRT: A Structural Model of Latent Ratings and Topics in Text**

- INFORMS Workshop on Data Science 2022, Indianapolis, IN, USA. Awarded the INFORMS Workshop on Data Science 2022 Student Scholarship.
- Conference on Information Systems and Technology (CIST) 2022, Indianapolis, IN, USA.
- 17th INFORMS Workshop on Data Mining and Decision Analytics (DMDA), Indianapolis, IN, USA. Best Paper Finalist.

June 2022 — **Automation of Electron Microscope Aberration Corrector Tuning***
The Center for Bright Beams Annual Meeting 2022, Los Angeles, CA, USA

June 2022 **SMRT: A Structural Model of Latent Ratings and Topics in Text** (oral presentation)
2022 Symposium on Data Science & Statistics (SDSS), Pittsburgh, PA, USA

Jan. 2021 **Change Detection in Core-Periphery Networks: A Case Study on Detecting Financial Crises in the Interbank Market** (oral presentation)
Cornell 2021 Day of Data, Ithaca, NY, USA

Mar. 2018 **A09.00003: Evolution of a1/a2 Domains in Strained Ferroelectric Thin Films**
APS (American Physical Society) March Meeting 2018, March 5–9, Los Angeles, CA, USA

Teaching Experience

Cornell University

Spring 2022	**AEP 4340**	Fluid and Continuum Mechanics
Fall 2021	**AEM 4280**	Valuation of Capital Investment
Fall 2021	**AEP 3330**	Mechanics of Particles and Solid Bodies
Summer 2021	**NBA 6550**	Introduction to SQL
Summer 2021	**NCC 5060**	Managerial Finance
Spring 2020	**AEP 3200**	Mathematical Physics
Fall 2019	**AEP 1100**	Lasers and Photonics

Honors and Awards

2022 **3rd ICFA Beam Dynamics Mini-Workshop Student Scholarship**
The Center for Bright Beams

2022 **INFORMS Workshop on Data Science 2022 Student Scholarship**
INFORMS

2018 **Travel Award, APS March Meeting 2018**
Nankai University

2017 **Boling Class Fellowship**
Nankai University

2016 **First Prize, Nankai Physics Tournament**
Nankai University

2015 **Boling Class Freshman Fellowship**
Nankai University

Editorial and Peer Review Service

Editorial boards: Early Career Editorial Board member, *Materials Letters* and *Materials Letters: X*.

Journal reviewer: Physical Review Letters; Acta Materialia; npj Computational Materials; Physical Review B; Carbon Energy; Physical Review Materials; IEEE Transactions on Computational Imaging; Microscopy and Microanalysis; Energy & Fuels; Optics & Laser Technology; Materials Characterization; Scientific Reports; Materials Letters; Microstructures; Data Science in Science; AIMS Energy; International Journal of Technology and Information Studies (IJTIS).

Conference reviewer: International Symposium on Computational Sensing (ISCS), 2025.
